MAKE YOUR STUDIES *A JOURNEY*

Lisbon **Paris** **Berlin**

Forward College is a private state-recognised institution.

A MESSAGE FROM OUR *FOUNDER*

A message from our Founder. As both an educator and a parent, I understand how meaningful the choice of university is, for students and for their families. It is a decision about much more than what to study. It is about the experience they want to have, the kind of person they want to become, the opportunities they will be ready to seize, and the contribution they will be able to make in the world.

My experience across education, government, consulting and entrepreneurship has convinced me that academic excellence, while essential, is no longer enough. In a world being transformed by artificial intelligence and rapid social change, students need to develop the ability to think critically, adapt, collaborate and turn knowledge into action.

This is why I founded Forward College: to create a different kind of higher education experience, combining academic excellence with human connection, international experience and practical learning. Across three cities, students develop deep multidisciplinary knowledge alongside the cognitive, social, emotional and practical skills needed to thrive. They work on real-world projects, build professional and entrepreneurial skills, build a deeper understanding of themselves and others, and learn to use AI while developing judgement to navigate its impact on society and the future of work.

The challenges ahead require people who can connect disciplines, cultures and perspectives. Our ambition is therefore not simply to prepare students for their first job or their next degree. It is to equip them with the knowledge, character and adaptability to thrive in a world that will continue to change, and to give them the confidence and capabilities to help shape it.

Boris Walbaum
Founder and President

OUR MISSION

Give students a **holistic** (cognitive, social, emotional, and practical) and **international** learning experience equipping them with **future-proofed skills** to make a **positive impact** in an ever more rapidly changing world.

COGNITIVE INTELLIGENCE

Interdisciplinary knowledge, critical thinking, analytical thinking, problem solving, autonomous learning & curiosity, decision making

SOCIAL INTELLIGENCE

Communication, networking, collaboration, influence, intercultural awareness

PRACTICAL INTELLIGENCE

Design skills, project management, decision-making, AI, digital design, social network, data analysis...

EMOTIONAL INTELLIGENCE

Growth mindset, resilience, self-awareness, emotions & stress management

5 REASONS

WHY YOU SHOULD CHOOSE FORWARD COLLEGE

F

1 WORLD-CLASS DEGREES

We offer **eight bachelor's degrees** covering subjects such as Economics, Business, Politics, Data Science, AI and Psychology. They are designed by King's College London (Psychology) or the London School of Economics (all other degrees) and **awarded by the University of London** - except for the Open Bachelor's, which is designed and awarded by Forward College.

2 FUTURE READY

Designed with the input from over 60 experts, our programme helps you **master AI** as a working skill, **build practical** and **business skills** through real projects with partner companies, and **develop social** and **emotional intelligences** through our Personal Development programme.

3 PERSONALISED LEARNING

Students are **not numbers**. They receive personalised attention and support from their teachers thanks to an **average class size of 15 students** and **weekly one-on-one tutoring**. This fosters a supportive and tailored educational environment. Our faculty members have been previously affiliated with renowned institutions such as the LSE, King's College London, the University of St Andrews, Yale, Sorbonne University...

4 MULTICULTURAL EXPERIENCE

Students immerse themselves in diverse cultures, spending **each academic year in a different European capital** - Lisbon in year 1, Paris in year 2 and Berlin in year 3 - all within a vibrant community of **over 40 nationalities**.

5 STUDENT SUCCESS

Our students achieve outstanding results in exams from LSE and King's College London (**98.5% progression rate**) and have excellent outcomes after graduation (76% admitted to master's prgrammes in top 10 European universities or business schools*).

OUR COMMITTEE OF *SENIOR ADVISORS*

Capgemini, Hubert Giraud (Global Head of Human Resources & Transformation), **SAP**, Wolfgang Fassnacht (Global Head of Leadership & Talent Development), **L'Oréal**, Jean-Claude Legrand (Global Head of HR), **Heidrick & Struggles Consulting**, Hervé Borensztejn (Managing Director), **Salesforce**, Philippe van Caenegem (Global Managing Director of Innovation), HEC and Oxford, Prof. Olivier Sibony (former **McKinsey** Director), **Woodeum**, Guillaume Poitrinal (CEO), Cartier, Pascal Rousseau, (former Global Head of HR), **Tomtom**, Corinne Vigreux (Co-founder), **Leap Venture**, Hala Fadel (Managing Partner), **Arianespace**, Stéphane Israel (CEO), **OECD**, Stephan Vincent-Lancrin (Senior Expert in Education).

"Forward College combines what corporates are desperately looking for: a solid intellectual training with soft and digital skills."

JEAN-CLAUDE LEGRAND, Senior Advisor
L'Oreal - Global Head of Human Resources

"Forward College is the most exciting programme in Higher Education I've come across."

PAUL LEBLANC, President of Forward College Academic Council
Special Advisor of the Harvard University Graduate School of Education

"We need Forward College to bring about new talents who will be both more humane and able to leverage technology for good."

CORINNE VIGREUX, Senior Advisor
Co-Founder of Tomtom, Founder of CODAM Coding School

"Forward College understands the importance of social intelligence in a world where rational activities can be automated. The role of humans in leading companies has never been more important."

JEAN-PHILIPPE BECANE, Senior Advisor
Country Marketing Director at Google France

OUR WORLD-CLASS
UNDERGRADUATE PROGRAMMES

Our programmes are designed for bright undergraduate students who wish to go beyond academic excellence. Students can choose to follow a bachelor's designed by the LSE, King's College London, or Forward College itself, and combine one of these options with Projects with partners and Personal Development by selecting the intensity of their programme.

OUR BACHELORS DESIGNED BY THE LSE AND KCL

Forward College is an accredited teaching centre of the University of London, which allows us to offer bachelor's degrees under the academic direction of LSE or King's College London.

Awarding Body — UNIVERSITY OF LONDON

ACADEMIC DIRECTION — LSE THE LONDON SCHOOL OF ECONOMICS AND POLITICAL SCIENCE — #3 in Europe*

BSc in: Business & Management; Data Science & Business Analytics; Economics; Economics & Management; Economics & Politics; Politics & International Relations

ACADEMIC DIRECTION — KING'S College LONDON — #6 in Europe*

BSc in: Psychology

- Curriculum: LSE or KCL
- Teaching: Forward teachers (vetted by LSE or KCL) on campus
- Exams: LSE or KCL
- Accreditation the University of London
- Study in 3 countries to experience European diversity and political systems first-hand
- Theories and Application combine academic theory with projects to gain experience and build your "future of work" skills
- Accreditation: by the French Government. International recognition.

OUR BACHELORS DESIGNED BY FORWARD COLLEGE

Awarding Body and Academic Direction — FORWARD COLLEGE

The Open Bachelor's is inspired by the US liberal arts education model where students explore freely among all the available courses in year 1 and specialise in a major - and potentially a minor - from year 2

Majors in: Politics & International Relations; Economics; Management & Innovation; Data Science & AI

The PPE Bachelor is a combination of Philosophy, Politics and Economics.

The PPLE Bachelor is a combination of Psychology, Politics, Law and Economics.

*QS 2024: LSE #3 in social sciences and management in Europe, KCL # 6 in psychology in Europe

FORWARD COLLEGE OFFERS DIFFERENT FORMATS OF UNDERGRADUATE PROGRAMMES TO ACCOMMODATE DIFFERENT NEEDS AND POTENTIALS.

WHY CHOOSE OUR OPEN BACHELOR'S

Flexible & Rigorous
Study a flexible and rigorous curriculum, inspired by the US liberal arts model.

Multidisciplinary
Explore courses from various disciplines in Year 1 before specialising in Years 2 and 3.

Forward-looking courses
Strong focus on contemporary challenges (climate change, technological advancements, inequalities).

Explore before you specialise

Most high school students are unsure which subjects they want to pursue at university.

That's why the Open Bachelor's gives the students the freedom to explore a wide variety of subjects in Year 1 before making their choice of major(s) or major/minor combination in Years 2 and 3.

Majors in:
Management & Innovation
Politics & International Relations
Economics
Data Science & AI

Minors in:
International Relations
Management
Psychology
Economics
Politics
Leadership
Law
Philosophy

Experience forward-looking courses

Climate change, artificial intelligence, growing inequalities, wavering democracies and rising citizen engagement pose urgent challenges as much as they open new opportunities. There is no time to lose.

Our courses are designed to help our students to make sense of the world, decipher the future and learn how to influence it. We bring knowledge to life — this is how we build political leadership.

"As I prepared for my studies, I realised I was still unsure of what track I wanted to pursue. When the opportunity to explore a future at Forward College presented itself, I felt elated to have found a school that supported and encouraged me to continue to explore multiple programmes through the Open Bachelor's alongside an amazing international cohort."

PSYCHOLOGY, LAW, POLITICS, & ECONOMICS (PPLE)

FORWARD COLLEGE

IN SUMMARY

- Lisbon Year 1, Paris Year 2, Berlin Year 3
- Small Classes
- English
- Accommodation guaranteed
- Financial aid avaliable

WHY CHOOSE PPLE

Experience diverse systems
Study in Lisbon, Paris, and Berlin to experience European diversity and different legal and political systems first-hand.

The "Legal Intelligence" Edge
Unlike traditional law degrees, our Law modules are designed for future leaders, not lawyers. You will master regulatory design, contract negotiation, European and international legal frameworks.

The "Psychology Intelligence" Edge
Designed for future leaders, our modules explore human behaviour, decision-making, and organisational dynamics beyond traditional psychology degrees.

Theories and application
Combine academic theory with practical projects (Digital projects, Impact projects and Personal Development) to gain experience and build your "future of work" skills.

CAREER & MASTER'S POSSIBILITIES

The PPLE programme is a highly relevant "gateway degree" for high level careers in both the public and private sectors. Its multidisciplinarity is highly valued by top-tier universities, business schools and recruiters.

Public Administration & Policy
Prepare for a career as a Senior Civil Servant, Diplomat, or NGO Leader.

Ideal for: Masters in Public Policy (MPP), Public Administration (MPA), or International Affairs.

Management & Strategy
Prepare for a career in Strategy Consulting, Finance, Marketing, Public Affairs, Corporate Social Responsibility (ESG).

Ideal for: Masters in Management (MiM), Corporate Strategy, or Business Law.

Law & Regulation
Prepare for a career in Legal Practice, Regulatory Advisory, Compliance, or Policy Development in National or International contexts

Ideal for: Specialised Masters in Competition law, European and International Law, Tech Regulation, or Human Rights (for non-bar careers).

Target Masters

SciencesPo. · LSE The London School of Economics and Political Science · ULB Université Libre de Bruxelles · Hertie School · College of Europe Collège d'Europe · Freie Universität Berlin · INSEAD The Business School for the World® · HEC Paris · ie University

PHILOSOPHY, POLITICS & ECONOMICS (PPE)

FORWARD COLLEGE

IN SUMMARY

- Lisbon Year 1, Paris Year 2, Berlin Year 3
- Small Classes
- English
- Accommodation guaranteed
- Financial aid avaliable

WHY CHOOSE PPE

Experience diverse systems
Study in Lisbon, Paris, and Berlin to experience European diversity and different legal and political systems first-hand.

The "Meaning" Edge
On top of analysing complex problems with the double lens of politics and economics, philosophy helps students make sense of a changing world and their role in it. This is the way to build deep resilience and an ability to articulate new purposes and visions.

Theories and application
Combine academic theory with practical projects (Digital projects, Impact projects and Personal Development) to gain experience and build your "future of work" skills.

CAREER & MASTER'S POSSIBILITIES

The PPE pathway is a highly relevant "gateway degree" for analytical and leadership roles across sectors. Its interdisciplinary approach combining philosophical reasoning, political analysis, and economic thinking is valued by top-tier universities and recruiters.

Public Administration & Policy
Policy Analyst, Think Tank Researcher, Diplomat, NGO Program Manager...

Ideal for: Masters in Public Policy (MPP), Public Administration (MPA), International Affairs, or Development Studies.

Management & Strategy
Management Consulting, Economic Analysis, Public Affairs, Corporate Strategy, Managerial positions in regulated industries or Social Impact roles.

Ideal for: Masters in Management (MiM), Applied Economics, Corporate Strategy, or MBA programs (after work experience).

Target Masters

SciencesPo. · LSE The London School of Economics and Political Science · ULB Université Libre de Bruxelles · Hertie School · College of Europe Collège d'Europe · Freie Universität Berlin · INSEAD The Business School for the World® · HEC Paris · ie University

"Going to Forward was one of the best decisions I could have made for my career. The small class room approach and personalised experience enabled me to be prepared for life after university in the best way possible. I felt very prepared for interviews and was able to land my dream internship at Orbis Investments, one of the best investment management firms in the world. During the internship I did not feel out of place and I was able to demonstrate exceptional decision making and outside of the box thinking – skills that I developed during my time at Forward. I made so many friends, learned so much from everyone and I will cherish the moments I had at Forward for the rest of my life."

TRAINING *FOR FUTURE READINESS*

F

PROJECT MANAGEMENT
CERTIFICATE

These interdisciplinary certificates equip students to address real-world challenges through systems thinking, design thinking, and agile development for social and environmental good. Developed with over 60 entrepreneurs and experts, they can be taken alongside a University of London or Open Bachelor's degree. Working in teams, students build essential workplace skills while tackling meaningful problems.

IMPACT PROJECTS

In Year 1, students will collaborate on projects driven by shared values, such as reducing plastic use or promoting inclusivity. Guided by faculty through a design thinking process, they will develop impactful solutions while building strong project management and essential business skills.

CONSULTING PROJECTS

In Year 3, students will act as consultants for international partner organisations, tackling real-world challenges such as product development, communication strategies, or campaign design. Guided by faculty, they'll apply consulting methods, project management, business skills, and digital expertise to deliver impactful solutions.

DIGITAL PROJECTS

In Year 2, you will discover how without technical knowledge, you can design and implement digital solutions leveraging AI to solve problems of your choosing. You will familiarise yourself with incredibly user-friendly apps that act like coders or graphic designers at your side.

Base44 zapier python™

RESEARCH PROJECT

Research is entrepreneurial as it requires courage, creativity, and rigor at the same time. In Year 3, you will work in a team in close collaboration with one of our Forward academic Fellows.

EXAMPLES OF PROJECTS

Impact project
In collaboration with MyPolis, a Lisbon-based organisation, students developed gamified solutions to boost youth participation in EU democracy.

Digital project
Some students created No Cap, an AI tool that fact-checks Instagram posts to help users combat fake news.

Consulting project
A group of students acted as consultants for L'Oréal, tackling a strategic challenge for its L'Oréal for Youth initiative to support youth employment in Germany.

PERSONAL DEVELOPMENT
AND 360° COACHING

DEVELOPING YOUR PERSONALITY

How to manage your stress or anxiety? How to decipher your emotions? How to connect with people and build trustful relationships? How to make wise decisions? How to engage others? How to cope with frustration and bounce back from failure?

All these challenges lie on the road to well-being, self-efficacy and positive leadership. Although the answers are personal, students can deepen their understanding, set their objectives and gradually develop the skills that will help them navigate these situations and develop their personality.

YEAR 1 Social Intelligence	**YEAR 2** Emotional Intelligence	**YEAR 3** Leadership & Career
Effective Communication	Self-Awareness	Leadership
Connection (social initiatives)	Motivations & Courage	Career Readiness
Collaboration	Resilience	
Influence & Negotiation	Stress Management & Balance	

360° COACHING

Every year, students participate in a 360 assessment that allows them to gain valuable insight from various people in their network including peers, teachers, friends, and colleagues. This assessment generates a 360 report allowing them to identify strengths and areas for development, facilitating the creation of an Individual Development Plan.

During two 45-minute one-on-one sessions, a coach assists students in interpreting the 360 assessment results and offers guidance on their development plan, asking them which skills they would like to focus on and how they can develop those skills.

FORWARD COLLEGE & AI

EDUCATING FUTURE-READY STUDENTS IN THE AGE OF AI

At Forward College, we believe Artificial Intelligence is not just a tool: it is a transformative technology for the world of work and learning. By integrating AI into our teaching, we aim to enhance learning, foster innovation, and equip our students with the skills they need to thrive in an AI-powered world, while safeguarding critical thinking and intellectual independence.

AI AND FLIPPED LEARNING

Through Forward College's flipped-classroom model, students are progressively encouraged to first engage with course materials at home using AI tools that explain complex concepts, quiz their understanding, and adapt to their level. As a result, in class, teachers can focus on what only humans can do and what AI can't: guiding discussions, fostering debate, role-playing, coaching, solving problems, and creating together.

AI supports the acquisition of knowledge before class, while the classroom becomes a space for collaboration, training and deepening. Because AI tools can produce hallucinated or misleading explanations, students will be taught how to approach AI critically rather than relying on it for first exposure before the class. Pre-class work should guide students to consult the official materials first, and then use AI only to compare, rephrase, or reflect on what they have already learned. This helps students develop AI-literacy skills and prevents AI-generated misunderstandings from shaping their baseline knowledge.

AI AND ASSESSMENTS

Most assessments are closed books and take place on campus with strict invigilation rules that are here to maintain assessments integrity and equal treatment among students

Some assessments are open book (AI allowed). In such cases, use of AI is expected and is reported in a special form. Expectations are much higher and examination entails an oral dimension to ensure students own their production.

LEARN ABOUT AI AND ITS IMPLICATIONS

1. All students are trained into prompting and optimising AI for learning
2. Through our Open Bachelor's, you will explore how AI and technological change affects growth, productivity, competition, politics, public opinion, information, the human mind...
3. Earn professional AI certifications as part of our Open Bachelor's.
4. Choose a major in Data Science and AI through our Open Bachelor's or apply to our BSc in Data Science from the LSE to prepare for job opportunities in the AI industry

OUR AI TOOLS FOR STUDENTS

- **AI HUB:** Gives students access to all leading models (GPT, Claude, Gemini...) and Forward AI solutions (AI tutors, Career Bot or English for Academic Purposes Bot).
- **PERSONAL AI DASHBOARD:** Helps students assess and develop their AI skills and how well they leverage AI for their learning.
- **AI INDUCTION WORKSHOPS:** Introduces every student to AI and how best use it for learning

AI AND YOUR FUTURE

In an AI Powered workplace, the real difference will come from what only humans can do. The leaders of tomorrow will stand out not by knowing more, but by connecting better - with people, with ideas, and with technology. At Forward College, we prepare students to work with AI, not compete with it: to question algorithms, turn data into meaning, make ethical choices, and, most importantly, to build trust and generate momentum among humans.

A UNIQUE PEDAGOGICAL APPROACH

Forward College's pedagogy draws on cutting-edge research in education, cognitive science, and neuroscience. It focuses not only on academic skills but also on personal growth and self-awareness. Students explore their unique learning profiles and reflect on their values and mindset. They assess how their choices align with their beliefs and define growth priorities. The approach encourages critical thinking and intentional development.

Forward College provides one of the highest student-to-faculty ratios. Our bespoke teaching is boosted by an innovative approach in order to develop not only performance but also learning agility, which is becoming the #1 skill in the eyes of recruiters.

100% Small Classes

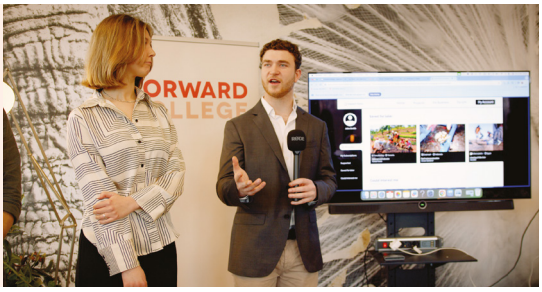
Our seminars have an average of 15 students, maximising learning

One-on-one tutoring

Weekly personalised feedback to track and support students progress

Seminars

Where students will test and adopt the most relevant learning methods for them.



Active learning pedagogy

Where students gradually acquire greater autonomy and initiative, share difficulties with their learning peers, self-assess their progress

3 COUNTRIES

IN 3 YEARS

F

Forward College is an expedition into three European cities, where students will connect with different cultures and expand their horizons: **Year 1 in Lisbon; Year 2 in Paris; Year 3 in Berlin.**

Forward students will live together in student residences where they'll meet new friends, share their passions, talents, and causes, and pursue joint initiatives. **We guarantee accommodation for all students in the residences.**

LISBON

YEAR 1

Our Learning Centre is spread across two buildings, both located in the heart of Lisbon. Students live in a residence in Benfica, around 20 minutes away by metro. Next to the residence, they have access to an exclusive co-working space for study sessions and social meet-ups.

PARIS

YEAR 2

Students live and study at Cité Internationale Universitaire in the 14th arrondissement, in the south of Paris. The Learning Centre is based at Maison Internationale, just a short walk from the residences, offering a vibrant academic environment.

BERLIN

YEAR 3

The Learning Centre is located at the Cambridge Innovation Centre (CIC), recognised by the Financial Times as one of Europe's Leading Start-Up Hubs in 2026. Students live in partner residences across the city, with a range of neighbourhoods, price points, and amenities available.

3 YEARS IN PARIS

THE PARIS JOURNEY

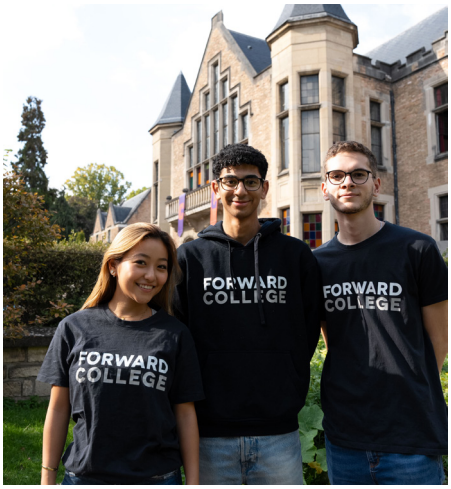
Spending three years in Paris is about much more than earning your degree. It's about building a life there. You live with your cohort in student houses on a green campus, with sports, music and theatre, learn in small classes of around 15 alongside students from 40+ countries, and work on real projects with partner companies. By graduation, Paris isn't just where you studied. It's home.

"By graduation, Paris isn't just where you studied. It's home."

~15	40+	12,000+	2
students per class	Nationalities	students at the CIUP campus	one-week international expeditions

LIVE & STUDY IN PARIS

Paris is one of Europe's great academic, cultural and economic capitals, offering a rich environment in which to grow both academically and personally. You'll live and study at the Cité Internationale Universitaire de Paris (CIUP), an international university campus home to more than 12,000 students from around the world. From sports facilities and cultural events to student initiatives and social activities, campus life offers plenty of opportunities to meet new people, explore your interests and become part of a wider student community.



LIVE
Student houses shared with your cohort, on a green campus in the heart of Paris.

STUDY
Small classes of around 15, just steps from where you live, and real-world projects with partner companies.

PLAY
Sports facilities, cultural events and student initiatives on an international campus.

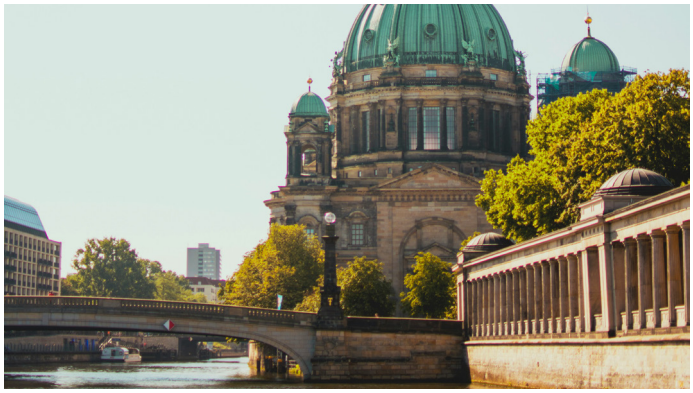
A JOURNEY BEYOND PARIS

At Forward College, your university experience extends beyond the classroom and across borders. You'll be part of an international community of students from more than 40 nationalities, bringing together different perspectives, experiences and cultures.

The Paris Journey also gives you the opportunity to experience life at our other campuses through two international expeditions: **a week in Lisbon at the end of Year 1 and a week in Berlin at the end of Year 3**. It's a chance to connect with the wider Forward community and discover two more European cities.

YEAR 1 Lisbon

1-week expedition to Lisbon



YEAR 3 Berlin

+ 1-week expedition to Berlin

WHO IS IT FOR?

The Paris Journey is available exclusively to students enrolled in one of our world-class degrees designed by the London School of Economics:

- **BUSINESS & MANAGEMENT**
- **ECONOMICS**
- **ECONOMICS & MANAGEMENT**
- **DATA SCIENCE & BUSINESS ANALYTICS**

UNIVERSITY OF OXFORD

Meet our faculty team

MEET OUR *SENIOR TEAM*

BORIS WALBAUM
Founder and President

Boris started his career in the French Government and Mckinsey before evolving to entrepreneurship in higher education. He founded Article 1 - the #1 charity for equal opportunities in Europe with more than 150,000 students supported annually - and Dual Conseil, a leading consultancy providing strategic advice to universities.

CÉLINE BOISSON
Founding Partner and Head of Marketing and Operations

Celine graduated from ESSEC MBA and Complutense University of Madrid. During her 15 years working in the tech industry for Google and YouTube, Celine has seen the extraordinary changes taking place in the world of work and felt an urgency to adapt higher education to these new challenges by equipping students with new skills and knowledge. Passionate about education, she designed, implemented, and scaled Google's biggest training programme with one million university students and small businesses trained in digital skills in a two-year period. She also launched a global programme on YouTube to support students, parents, and teachers in continuing learning during Covid lockdown.

JEFFREY SAMPSON
Founding Partner and Chief Talent Officer

Founding Member of Apple University; involved in executing Steve Jobs vision to develop and prepare the next generation of leaders at Apple. Jeffrey has also been Global Head of People and Leadership Development at Christie's and Uniqlo.

DR. PAUL COWELL
Director of Teaching and Learning and Associate Professor of Economics

Before joining Forward in 2023, Dr. Paul Cowell was a Senior Lecturer at the University of Stirling. He holds a BA in Economics from the University of Stirling, an MSc from the University of Edinburgh, and a PhD from the University of Stirling. A Senior Fellow of Advance HE, he contributes to CORE Econ and the Economics Network, and has received multiple awards for teaching excellence.

SUMMER SCHOOL

MAKE YOUR SUMMER A UNIQUE JOURNEY

IN SUMMARY

LOCATION	DATES	AGES	FEE*
Lisbon	5–16 July	15–18	€4,800

Choosing what to study next is a big decision, so why not test it out first?
That's what the Forward College Summer School is built for.

Over two unforgettable weeks in Lisbon, you'll join an ambitious international community, choose up to two study tracks and use the two weeks to gain insight into what studying this subject at university is like and whether it's right for you.

1 ACADEMIC EXPERIENCE

Two weeks in a track to find out whether it's the right fit for you.

2 FUTURE-READY SKILLS

Develop AI fluency, build essential human skills, and discover your personality type with MBTI.

3 REAL-WORLD EXPERIENCE

Apply what you've learned in a hackathon challenge, working in teams to solve real-world problems

4 MEMORABLE EXPERIENCE

Live with an International community in one of Europe's safest and sunniest cities, enjoy extracurriculars everyday.

CHOOSE YOUR TRACK

You can choose up to two academic tracks to explore in depth.

- **POLITICS & INTERNATIONAL RELATIONS**

Explore how political systems, diplomacy and power shape the world. From climate cooperation to who controls AI, and how cultural phenomena influence international relations.

- **BUSINESS & MANAGEMENT**

Discover how economic forces shape businesses, markets and society. Explore how AI is transforming industries, who gains from the climate transition, and what drives wealth inequality.

- **PSYCHOLOGY**

Explore how people think, behave and decide in a changing world. Why do we love or hate AI? Why is climate awareness so hard to turn into action? What connects us to celebrities we've never met?

- **DATA SCIENCE & AI**

Discover how data and AI help us understand the world. Explore how AI learns, how data reveals patterns in climate change, inequality and popular culture, and how numbers can mislead.

*Inc. tuition fees, accommodation, extra-curricular activities, and three meals a day

PROGRAMME OVERVIEW

ACADEMIC SEMINARS & WORKSHOPS:

Take part in 13 academic seminars and 8 workshops, exploring your chosen subjects and applying what you learn through practical activities.

PERSONALITY & LEADERSHIP:

Develop a better understanding of yourself and how you work through 3 Personality & Leadership Seminars, including sessions focused on personality and working styles.

AI & HACKATHON:

Spend a full day exploring how AI can support your learning and problem-solving, before putting your ideas into practice during the Hackathon.

LEARNING & CAREER DEVELOPMENT:

Reflect on your strengths, working style and goals through sessions on learning how to learn, MBTI, wrap-up activities and career counselling.

EXTRACURRICULAR ACTIVITIES:

Take part in a range of cultural, social and outdoor activities, including city exploration, beach days, sports and day trips around Lisbon and the surrounding area.

LIFE IN LISBON

Our classes take place on our campus in the historic city centre, in the vibrant Bairro Alto neighbourhood. Just a short metro ride away is our dedicated student residence, where students live and connect together.

Every afternoon from 3pm to 6pm, students step beyond the classroom to experience Lisbon, from cultural and social activities to sports in the Monsanto Forest Park, the heart of the city and on the nearby beaches.

ACCOMMODATION

Students stay at Xior Benfica, a dedicated student residence. Each student has a private room and bathroom, with a shared kitchen, and an on-site coworking space, perfect for studying, playing board games or simply chatting with friends.

CAREER SUPPORT
& WORK EXPERIENCE

HOW WE SUPPORT OUR STUDENTS

Our career coach and teaching fellows will support you in selecting and applying to top Master's programs and job opportunities - opening doors to your preferred universities or companies. You will benefit from:

Career Development Centre: The Career Development Centre is ready year-round to provide personalised support so you find an internship that is aligned with your area of study and your goals.

Career Coaching & Workshops: One-to-one coaching sessions help you refine your CV, prepare for interviews and explore your career options. Practical workshops cover topics such as choosing the right Master's programme, writing a personal statement and preparing for job interviews.

Career Planning Tools: Students have access to CareerOS, a career planning platform integrated with LinkedIn, offering AI-assisted tools to help with career planning, writing outreach messages and preparing CVs and cover letters. Through Forage, students can also explore different careers and gain practical experience through free job simulations.

University of London Career Service: As part of the University of London community, Forward College students can access career resources and networking opportunities, including panel discussions with international alumni and employers, employability workshops and opportunities to connect with students from around the world.

WORK EXPERIENCE

6-8 weeks Internship: During your third year at Forward, you will complete a mandatory internship so that you graduate with real-world experience and prepare for the challenges of the job market. Forward supports you in identifying and applying to potential internships.

Social & Sustainability Entrepreneurship Project: You will have gained concrete experience in real-world problem-solving of social and sustainable issues

Digital Entrepreneurship Project: You will have gained first-hand understanding of no-code development, UX design or digital marketing

Research: Autonomous research skills, establishing a scholarly mindset that will prepare you for future post-graduate studies or a future in academia or research.**

Consulting with companies: You will have solved real-world problems submitted by international organisations partnered with Forward College. This will also allow you to make connections for potential work or internship opportunities.

**NB: the extent of this depends on your choice of programme.

MEET SOME OF *OUR ALUMNI*

MYRIAM, FRANCE
Class of 2024
Intern at the Consulate General of France in Washington, D.C.

CONSULAT GÉNÉRAL DE FRANCE À WASHINGTON
Liberté
Égalité
Fraternité

"Forward provided me with a space where I could safely experiment, make mistakes, and push myself beyond my academic limits. The development of practical skills such as leadership, cultural adaptability, and entrepreneurship, alongside a solid academic foundation, strengthened my application to Sciences Po Paris."

ZSANETT, HUNGARY
Class of 2025
Master's in Management at HEC Paris

HEC PARIS

"Coming to Forward College was an amazing decision in ways I didn't even imagine when I applied. I knew I would get a great education and the chance to discover three countries in three years, but I gained so much more. As I move on to my Master in Management at HEC Paris, I can see how much Forward has given me - I grew as a person through international projects, living independently abroad, and learning to juggle studies, work, and free time."

YOHANA, SPAIN
Class of 2024
HR Learning at L'Oréal

L'ORÉAL PARIS

"I decided to join Forward College for its personalised approach to teaching and the variety of fields of study I could focus on. At Forward, I knew I wouldn't be treated merely as a number and would be given the opportunity to shape my bachelor's degree based on my own interests."

DANIEL, HUNGARY
Class of 2024
Junior Consultant at EY

EY

"I chose to study at Forward because it offers outstanding travelling opportunities and high-quality education. After graduating, I decided to join Ernst & Young's Graduate Program before pursuing a master's degree. Throughout my interviews, my international background was a highlight, and I felt my degree was truly valued. I can't wait to see how the skills I developed at Forward will continue serving me in my career."

STUDENT LIFE

STUDENT COMMITTEES

Student governance committees have the responsibility of representing all students in matters. The committee members are elected yearly on each campus. All majors are represented and all majors committee leaders will meet with the respective coordinators from the staff. At least one formal meeting per semester is held to discuss areas of representation across campuses.

STUDENT CLUBS

Student clubs are designed by and for the students. They are a key aspect of the Forward College student experience as the creation, governance, decision-making and budget management are all student-led. Student committee members have oversight to ensure the clubs showcase the core values of integration, community and change-making at the heart of life at Forward. On occasion, staff administration also supports and/or funds some clubs' projects and activities.

EVENTS

Life at Forward College goes beyond the classroom. From festive Winter Balls and cozy Friendsgiving gatherings to the engaging Forward Model UN, our events bring students together, foster connections, and create unforgettable memories. These experiences are a cornerstone of our community, blending fun, networking, and personal growth.

GUEST SPEAKERS

We host a series of talks from leading academics and other expert speakers to expand our students' perspectives on the world, provide inspiration, offer experiences that go beyond the classroom, and foster connections.

STUDENT SUPPORT
AND WELLBEING

At Forward College, student wellbeing is seen as a lasting state of positive emotions, attitudes, and relationships. Research links wellbeing to better academic performance. Students will face challenges as they adapt to a new country, increased autonomy, and multicultural settings. They will also experience novel teaching approaches, potentially in a new language, and facing new types of collaboration such as working in teams or working on projects.

1 FRIENDSHIP AND COMMUNITY LIFE

The first pillar of wellbeing at Forward College is building meaningful peer relationships. Students begin with a two-week induction focused on teamwork, feedback, and managing differences. Fun group activities like surfing and cooking contests help create bonds. Small-group teaching and shared student housing further strengthen these connections.

2 PERSONAL TUTORING

Each month, all students meet their personal tutor who is generally one of the teaching staff. This is the opportunity to check in on their performance but also on their morale, social integration, and development needs.

3 COUNSELLING

Short-term counselling is available in the first year to support students through academic, personal, and emotional transitions. It can help with exam stress, anxiety, procrastination, and other wellbeing concerns. For more serious or long-term needs, Forward College directs students to appropriate healthcare services. This ensures tailored support for every student's mental health.

4 LEARNING SUPPORT AGREEMENT (LSA)

Forward College is dedicated to fostering an inclusive environment for all students. Those with diagnosed conditions can access accommodations outlined in a Learning Support Agreement (LSA). Adjustments may include extra exam time or adapted transport for field trips. Support covers disabilities, neurodiversity, and long-term medical conditions.

TUITION
FEES

Discover Forward's annual tuition fees for the academic year 2026/27 below.
There is no application fee when applying to Forward College. Scholarships and zero-interest trust loans are available to help students in financial need.

PROGRAMME	UNIVERSITY OF LONDON BACHELORS*	FORWARD COLLEGE BACHELORS
Bachelor's (EU - EEA - UK / Non EU)	**21,850€ / 26,550€**	**19,500€ / 24,200€**
Bachelor's+** (EU - EEA - UK / Non EU)	**24,800€ / 29,500€**	**23,617€ / 28,317€**
Double Bachelor's (EU - EEA - UK / Non EU)	**29,500€ / 34,200€**	**27,842€ / 32,542€**

*The amounts cover both the University of London and Forward College tuition fees. Please consult our website for latest information and fees.
**The PPE and PPLE programmes are only available with the Bachelor's+

COST OF ACCOMODATION

Students will live in our dedicated Student Residences which are part of the Forward co-living and co-learning experience. Here are indications on the approximate monthly rates of the rooms:

Lisbon: €750 to €900 per month
Paris: €820 to €1200 per month
Berlin: €550 to €1200 per month

FINANCIAL AID

Diversity and equal opportunity are at the heart of Forward College. Through our financial aid programmes, we enable around 30% of each new cohort to join us from disadvantaged backgrounds.

Each year, we offer a number of scholarships and 0% interest loans to students for whom accessing higher education would not be possible without financial support.

1 FORWARD COLLEGE SCHOLARSHIPS

Our scholarships provide up to €5,000 per year, which is fully deducted from the tuition fees for each of the three years of the bachelor's degree.

2 FORWARD COLLEGE GLOBAL EXCELLENCE SCHOLARSHIP

This scholarship recognises high-achieving students who combine intellectual curiosity, academic excellence, and a strong sense of purpose, particularly those who have overcome barriers to education. It offers up to 100% of tuition fees for the three years of the bachelor's.

3 0% INTEREST STUDENT LOAN

These 0% interest loans are available to applicants who demonstrate financial need, as defined by Forward College. This loan provides partial coverage of tuition fees annually and is distributed throughout the three-year program. Because they are interest-free, you will only repay the exact amount you borrowed, nothing more. Repayment begins two years after graduation, giving you time to pursue further studies without immediate financial pressure. However, if you choose to start working immediately after graduating, repayments will begin once you start earning an income. The standard repayment period is five years, with all repayments to be completed within a maximum of seven years after your graduation from Forward College.

4 PAID STUDENT ROLE

At Forward College, we also offer student roles as an additional opportunity for financial support. With roles available in recruitment, marketing, and peer mentoring, these positions are need-based and tailored to the student's skills and interests, while also giving students the opportunity to contribute to the daily success of Forward College. Students can receive up to 556 euros per month to help with their living costs. Students can apply to the student jobs at the start of the academic year.

FORWARD COLLEGE

Forward College is the future of education. It nurtures characters who will be able to navigate a highly uncertain future, make wise decisions, and lead change. It is where career-building begins; it's where people grow to become leaders in a new way that's exciting and inspiring.
